

REPORT OF THE NFPA MOTIONS COMMITTEE*

ON

FALL 2010 REVISION CYCLE DOCUMENTS

I. Introduction. This is the Motions Committee Report on Documents in the Fall 2010 Revision Cycle. The report identifies Certified Amending Motions for Documents in Fall 2010 Revision Cycle that may be presented at the 2011 Association Technical Meeting in Boston, Massachusetts on June 12-15, 2011. The Report also identifies Fall 2010 Revision Cycle Consent Documents.

This Report will be incorporated into a Final Motions Committee Report for the 2011 Association Technical Meeting which will be made available by May 6, 2011. In addition to Consent Documents and Certified Amending Motions on Documents in the Fall 2010 Revision Cycle, the Final Report will include Consent Documents and Certified Amending Motions on Documents in the Annual 2011 Revision Cycle.

The Motions Committee, consisting of NFPA Standards Council Members J. Pauley (Chair), K. Bell, S. Clary, R. Farr, D. McDaniel, and J. Milke, has been appointed by the Chair of the Standards Council to certify proper amending motions and otherwise review and act, in accordance with 2.1 through 2.5 of the *NFPA Technical Meeting Convention Rules (Convention Rules)*, on Notices of Intent to Make a Motion (NITMAMs) that have been submitted on NFPA Codes and Standards (Documents), that have been processed in the Fall 2010 Revision Cycle.

Under NFPA rules, persons wishing to make an allowable amending motion at an NFPA Technical Meeting must declare their intention to do so by filing within the published deadlines, a NITMAM setting forth information about the intended motion. The Motions Committee, in accordance with NFPA rules, reviews each NITMAM to determine whether the intended motion is a proper motion. The Motions Committee can also, in consultation with the submitter of the NITMAM, clarify the intent of, and if appropriate, restate the motion, and, in certain circumstances, group motions that are dependent on each other together so that they can be made as a single motion. In addition, the Motions Committee may take such other action or make such other recommendations as will facilitate the fair and efficient consideration of motions within the available time. The Motions Committee certifies for presentation at the appropriate Association Technical Meeting all proper Amending Motions, either as submitted or as clarified, restated or grouped, as explained above. The Motions Committee then publishes a report setting forth, at a minimum, each Certified Amending Motion, the person(s) authorized to make such motions, and the recommended order in which motions should be entertained. In addition, the Report may include Motions Committee notes or comments aimed at assisting the Presiding Officer or facilitating the understanding of or the orderly and efficient consideration of the motion when presented at the Association Technical Meeting.

The Certified Amending Motions for Documents reporting in the Fall 2010 Revision Cycle are set forth in Part II of this report. Part III typically summarizes motions that were not certified by

*In the event that any corrections to or revisions of this Report become necessary, updates will be posted on the NFPA Website at www.nfpa.org

Posted November 19, 2010 Report of the Motions Committee: Fall 2010 Revision Cycle

the Motions Committee. In this case, however, all motions received on Fall 2010 documents were certified. Part IV of this Report lists those Consent Documents in the Fall 2010 Revision Cycle that have no Certified Amending Motions. In reviewing this report, the following should be considered:

- The only Amending Motions allowed at an Association Technical Meeting are Certified Amending Motions set forth in a report of the Motions Committee and any Follow-Up Motions, that is, motions that may become necessary as a result of a previous successful Amending Motion. (See *Convention Rules* at 3.4.4)
- Certified Amending Motions can only be made by person(s) listed in this Report as authorized to make the motion, or by persons they have designated in writing to the Standards Council Secretary as their Designated Representative. [See *Regulations Governing Committee Projects (Regs.)* at 4.6.8.1]
- The Certified Amending Motions set forth in this report are proper and permissible; they will, however, only be presented for the consideration of the membership at the 2011 Association Technical Meeting if a person authorized to make the motion (or their Designated Representative) actually appears, signs in no later than one hour before the beginning of the session (See *Convention Rules* at 2.7), and makes the motion in accordance with NFPA rules.
- This Report concerns only Fall 2010 Revision Cycle Documents with Certified Amending Motions for consideration at the 2011 Association Technical Meeting in Boston, MA on June 12-15, 2011. As further set forth for the above, other Documents reporting to the 2011 Association Technical Meeting (Annual 2011 Revision Cycle Documents) will be treated in a separate Report.
- The Report on Comments for Annual 2011 Revision Cycle Documents will be available by February 25, 2011. The deadline for submitting NITMAMs on these Annual 2011 Revision Cycle Documents is April 8, 2011. The NITMAMs for the Annual 2011 Revision Cycle Documents will be reviewed for certification by the Motions Committee, and published in the Final Motions Committee Report for the 2011 Association Technical Meeting by May 6, 2011.
- The Motions Committee may refine or revise the sequencing and/or grouping of previously published motions through amendments to this report, or in its Final Motions Committee Report.

The information presented above provides a general introduction to some of the relevant features of the NITMAM process and the presentation of Certified Amending Motions. For a full and complete understanding of the process, participants should consult the rules themselves, including the *Convention Rules* and the *Regs.* In particular, the rules concerning the submission of NITMAMs and the Certification of Amending Motions can be found at 2.0 of the *Convention*

*In the event that any corrections to or revisions of this Report become necessary, updates will be posted on the NFPA Website at www.nfpa.org

Rules and 4.5 of the *Regs.* The rules concerning membership action at Association Technical Meetings can be found, generally in the *Convention Rules* and in 4.6 of the *Regs.* These are published in the *2010 Codes and Standards Directory* and are available on the NFPA website at www.nfpa.org/Regs. For additional information about the NFPA codes and standards process, consult the NFPA website or contact NFPA Codes & Standards Administration Department at 617-984-7248.

II. Certified Amending Motions. The Motions Committee has received and reviewed NITMAMs on four Fall 2010 Revision Cycle Documents. The Committee has determined that three Documents have at least one Certified Amending Motion that may be presented for action at the 2011 Association Technical Meeting. The Motions Committee did approve a request by the submitter of one NITMAM on NFPA 85 to withdraw the NITMAM. NITMAMs that have been withdrawn by the submitter, before the NITMAM closing date are not addressed in this Report. See *Regs.* at 4.5.2. The three Documents with Certified Amending Motions are as follows:

NFPA 51A *Standard for Acetylene Cylinder Charging Plants*
NFPA 79 *Electrical Standard for Industrial Machinery*
NFPA 2001 *Standard on Clean Agent Fire Extinguishing Systems*

Table A summarizes the motions that have been reviewed and certified by the Motions Committee for Documents processed in the Fall 2010 Revision Cycle for consideration at the 2011 Association Technical Meeting in Boston, MA on June 12-15, 2011.

Note that, in order for any one of the above Documents to actually be presented for action at the 2011 Association Technical Meeting, an authorized maker of at least one Certified Amending Motion on that Document must sign in pursuant to 2.7 of the *Convention Rules*. Where no sign-ins on a Document have taken place, the Document will be considered a Consent Document and will be forwarded directly to the Standards Council for action in accordance with the *Regs.* at 4.8. See *Regs.* at 4.5.5 and 4.5.6.

III. NITMAMs that were not certified by the Motions Committee. In the Fall 2010 Revision Cycle there were no motions that were reviewed by the Motions Committee and not certified.

IV. Consent Documents. Where a Document in the Fall 2010 Revision Cycle receives no NITMAMs, or receives NITMAMs which are not certified as amending motions by the Motions Committee, the Document is considered a Consent Document. A Consent Document is not presented to the Association Technical Meeting and is, instead, forwarded directly to the Standards Council for issuance. (See *Regs.* at 4.5.6)

Following are the twenty-five (25) Consent Documents in the Fall 2010 Revision Cycle that will be forwarded directly to the Standards Council for issuance on December 14, 2010. The effective date of these Documents will be January 3, 2011.

<p>*In the event that any corrections to or revisions of this Report become necessary, updates will be posted on the NFPA Website at www.nfpa.org Posted November 19, 2010 Report of the Motions Committee: Fall 2010 Revision Cycle</p>

NFPA 2	<i>Hydrogen Technologies Code</i>
NFPA 12	<i>Standard on Carbon Dioxide Extinguishing Systems</i>
NFPA 16	<i>Standard for the Installation of Foam-Water Sprinkler and Foam-Water Spray Systems</i>
NFPA 18A	<i>Standard on Water Additives for Fire Control and Vapor Mitigation</i>
NFPA 31	<i>Standard for the Installation of Oil-Burning Equipment</i>
NFPA 32	<i>Standard for Drycleaning Plants</i>

NFPA 1977	<i>Standard on Protective Clothing and Equipment for Wildland Fire Fighting</i>
NFPA 1984	<i>Standard on Respirators for Wildland Fire-Fighting Operations</i>

Note: In accordance with 1.6.2(a) of the Regs., there is a fifteen day appeal period following the publication date of this report in which one may file an appeal related to the issuance of any Consent Documents listed in this report. Note, however, that unless clear and substantial reasons exist to consider such an appeal, the Standards Council may summarily dismiss the appeal on account of the procedural failure to notice and make an appropriate motion at the Association Technical Meeting. The final date to file any such appeal is December 4, 2010.

<p>*In the event that any corrections to or revisions of this Report become necessary, updates will be posted on the NFPA Website at www.nfpa.org Posted November 19, 2010 Report of the Motions Committee: Fall 2010 Revision Cycle</p>

TABLE A
Certified Amending Motions on Documents for the Annual 2011 Association Technical Meeting
 (Note: The motions are presented in the order of presentation recommended by the Motions Committee)

Document #1 NFPA 51A, *Standard for Acetylene Cylinder Charging Plants* F2010

Motion Seq #	NITMAM Log #	Section/Para	Person(s) Authorized to Make the Motion	Certified Amending Motion**	Motion Committee Notes and Comments**
51A-1	778	10.6.4 and 11.2.1.3	Larry L. Fluor, Fluor, Inc. Representing the Compressed Gas Association (CGA)	Reject Comment 51A-9	Motion seeks to return 10.6.4 and 11.2.1.3 to previous edition text.
51A-2	776	10.6.4 and 11.2.1.3	Larry L. Fluor, Fluor, Inc. Representing the Compressed Gas Association (CGA)	Accept an Identifiable Part of Comment 51A-8. The Identifiable Parts are Sections 10.6.4 and all of 11.2.1.3 in Comment 51A-8.	Motion seeks to Accept an Identifiable Part of Comment 51A-8 as follows: 10.6.4 Fire Protection. Fire protection systems shall be provided in accordance with 11.2.1.3. 11.2.1.3 Mobile Acetylene Trailer Systems (MATS). At mobile acetylene charging plants a deluge fire sprinkler system having a minimum water density of 0.3 gpm (1.14 L/min) per square foot for an area of 2500 ft ² (232 m ²) or less shall be installed in the areas occupied by trailers in charging or discharging stations. The minimum water density requirement decreases linearly to 0.2 gpm (0.76 L/min) per square foot for areas greater than 5000 ft ² (464.52 m ²). The fire protection system shall be able to be activated automatically and also by manual actuator. 11.2.1.3.1 The fire protection control system shall be located so that it is visible and accessible in an emergency. 11.2.1.3.2 Existing charging and discharging MATS shall be protected by a deluge fire sprinkler system in accordance with 11.2.1.3 by January 1, 2015.

*Designated Representative in accordance with 4.6.8.1 and/or 4.6.8.2 of NFPA's Regulations Governing Committee Projects.

**In describing the Certified Amending Motion and in the Motions Committee Notes and Comments, the Motions Committee sometimes summarizes the results of the certified amending motion under consideration. The actual proposals and/or comments related to the motion should, however, be consulted for a complete description of the precise text under consideration.
